# Weather Key Points

Regional Operations Center

Western Region

Friday, July 1

- The trend toward much cooler temperatures will continue through the holiday weekend, with only minor heat risk impacts for much of the state as readings will be more typical for early July
  - Hotter temperatures are forecast to build back over more of the state by late next week
- Breezy winds will persist each afternoon and evening for the southern California mountains and deserts as well as areas along and east of the Sierra through the middle of next week
  - These winds bring additional periods of elevated fire weather conditions
  - Some stronger winds are also expected at times over the Sacramento Valley and Bay Area through early next week
  - Widespread critical fire weather conditions are not currently expected over the next 7 days
- A few scattered showers and thunderstorms remain possible across far northern California later Saturday and Sunday, while most other areas of the state will see dry weather through the middle of next week
